1. **Key Account Management:** Institutionalize VIP loyalty programs for the top 3 clients (Horst Kloss, Jose Pavarotti, Roland Mendel) who collectively represent over a quarter of total revenue.
2. **Inventory Seasonality Smoothing:** Adjust inventory buffer thresholds ahead of the mid-year (May–June) volume dip to optimize holding costs while ensuring readiness for Q4 spikes.
3. **Carrier Contract Renegotiation:** Consolidate shipping volume across United Package, Speedy Express, and Federal Shipping to reduce the $78.24 per-order shipping expense.
4. **Category Expansion:** Cross-sell premium offerings (like Côte de Blaye) into high-volume categories like Beverages and Dairy Products.
