CORE SKILLS

- **Data Analysis**: SQL, SPSS, MS Excel, Python, R, Quantitative and Qualitative Analysis, Descriptive Statistics, cross-tabulation, data visualization, and data transformation.
- **Database Administration**: SQL, Windows Server, ORACLE Server, MS Access, PLSQL, Neo4J
- **Data Visualization**: Infogram, PowerBi, Tableau, Ms PowerPoint, data storytelling, dashboards, and performance metrics reporting
- **IT Support**: Troubleshooting, Remote Support, Operating System
- **Project Management**: Team Leadership, Effective Communication, Organizational Skills
- **Research and Ethics**: Ethical Research, Literature Reviews, Social Research, Market Research, Report Writing
- **Technical Knowledge**: Java, HTML, JavaScript, CSS, Salesforce
- **Soft Skills**: Outstanding verbal and written communication skills, Excellent Problem-Solving Skills, Self-starter, High attention to details, Team player
- **Big Data:** Hive, Spark
- **Machine Learning:** Python, Weka, R
- **Statistical Software & Techniques:** SPSS, Python (Pandas, NumPy, Matplotlib), and Excel for advanced statistical analysis and machine learning, Tableau.

WORK EXPERIENCE

Database Consultant May 2023 - Present

Humanitarian Outcomes

- Documented and resolved inaccuracies in the GDHO Airtable and Database, leading to a 25% increase in efficiency for the Humanitarian Outcomes database system
- Worked with my team lead for database management and optimization strategies, designing complex databases with Global Database for Humanitarian Outcomes to ensure seamless data flow for humanitarian organizations
- Utilized Air table and SQL extensively to streamline data collection, entry, and analysis processes, improving overall database efficiency and user experience
- Conducted trend analysis using SPSS and SQL, providing actionable insights to enhance humanitarian efforts
- Leveraged data visualization tools like Tableau and Power BI to present data insights to stakeholders, enabling data-driven decision-making
- Conducted surveys and interviews and analyzed the result giving actionable insights on the state of humanitarian organizations around the world.
- Leveraged my knowledge of data structures to design efficient data models and optimize data workflows in Airtable and SQL, ensuring fast, reliable access and analysis across the humanitarian database system.

Full Stack Developer Intern

Zodiac Tech Toronto May 2025 – August 2025

- Architected AI-powered real estate analytics platform processing 49,551+ Canadian properties with 88.3% ML prediction accuracy using ensemble models (XGBoost, LightGBM, Random Forest) and real-time economic data integration
- Led full-stack development of production-ready Flask application with MySQL database, RESTful API ecosystem (20+ endpoints), and responsive web interface featuring interactive property mapping and investment analytics
- Implemented enterprise-grade security infrastructure including 5-tier API key system, advanced rate limiting, ML-powered XSS/CSRF protection, and behavioral analysis achieving 100% attack prevention rate
- Built comprehensive investment intelligence platform with automated undervalued property detection (85% accuracy), portfolio optimization tools, and real-time market trend analysis using Bank of Canada/Statistics Canada APIs
- Deployed scalable Docker infrastructure with 99.9% uptime, <400ms API response times, and CI/CD pipeline achieving 85% test coverage while leading team of 5 developers in agile environment

Customer Service Representative Aug 2024 – May 2025

IGNITE Student Life, Humber College, Ontario, Canada

- Provided administrative and clerical support to all full-time and part-time staff through distributing mail, submitting work orders, and performing all other duties as requested
- Managed a high volume of inbound student inquiries, resolving billing issues and account discrepancies efficiently.
- Advised students of Humber College and the University of Guelph-Humber about all IGNITE services, wellness resources, and events through in-person office visits, emails, phone calls, and live chat inquiries with utmost professionalism
- Delivered excellent service while adhering to performance metrics, including call resolution time and customer satisfaction.
- Informed students about their IGNITE Health and Dental insurance plan and coordinated with the third-party insurance company to assist students with claim submissions, plan options, and the distribution of student benefit cards

IT Consultant Oct 2020 – Oct 2021

Finecare Diagnostic Limited

- Devised and executed comprehensive IT solutions, including network setup and maintenance and boosting operational efficiency
- Conducted market research and customer surveys to identify opportunities for business expansion
- Achieved a 65% increase in accounting accuracy by introducing invoicing software for receipts generation at Finecare Diagnostic Center Sapele, Nigeria
- Translated technical concepts into business-oriented language during team meetings

IT Support Specialist Nov 2018 – Oct 2020

Delta State College of Education, Mosogar Nigeria

- Led the installation and configuration of 40 workstations, ensuring optimal performance and user satisfaction through effective IT support
- Resolved technical issues for over 65 end-users promptly and with accuracy
- Utilized Microsoft Excel for data tracking and analysis of support requests, identifying patterns and areas for improvement
- Implemented a remote support system, streamlining assistance for students during course registration and payment processes
- Strengthened cybersecurity protocols by implementing and managing antivirus software across all systems
- Leveraged Windows Server for efficient network management and seamless communication within the organization

EDUCATION

Ontario Graduate Certificate, Information Technology Solutions Jan 2024 – Aug 2025

Humber College, Toronto, ON

- Key Courses: Machine Learning, Big Data Analytics, Database Design and Administration, Java Programming, Big Data Analytics, SQL Server, and Database Development
- Cumulative GPA of 86.5%

Ontario Graduate Certificate, Research Analyst May 2022 – Aug 2023

Humber College, Toronto, ON

- Key Courses: Quantitative and Qualitative Designs, Spreadsheet Management, Research Survey and Design, Career Management Skills
- Cumulative GPA of 85.6% and consecutive Dean's Honors List Award

Bachelor of Science, Computer Science Dec 2016 – Oct 2019

Delta State University, Abraka, Nigeria

- Key Courses: Java Programming, Data Structures and Algorithms, Human Computer Interactions, Database Management and Design
- Cumulative GPA of 3.75 in a 5-point grading system.

National Certificate in Education, Computer Science and Physics Dec 2013 – Nov 2016

Delta State College Of Education, Mosogar, Nigeria

- Key Courses: Ms Office, System Analysis and Design, Computer Networks, Operating Systems
- Cumulative GPA of 3.92 in a 5-point grading system.

PROJECTS

OvughMeet Analytics Platform Jan 2025 – Present

Project Description: Developed an innovative, no-code analytics platform enabling non-programmers to perform data analysis and machine learning. The platform features interactive data visualizations, automated model training, and AI-powered insights.

Technologies: Flask, PostgreSQL, OpenAI API, AutoML (scikit-learn, TPOT), Tableau, Pandas, NumPy, Matplotlib, Seaborn

Zodiac Real Estate AI May 2025 – Aug 2025

Project Description: Zodiac Real Estate AI is a production-ready real estate analytics platform combining machine learning (88.3% accuracy) with real-time economic data to provide property valuations, investment insights, and market analysis across 49,551+ Canadian properties.
Technologies: Python, Flask, MySQL, Scikit-learn, XGBoost, Docker, JavaScript, Bootstrap | Impact: Industry-leading AI accuracy, enterprise-ready security, production deployment

IGNITE Sleep Lounge & Zen Zone Automation Sep 2024 – May 2025
Project Description: Designed and developed a digital check-in and waiver system for Humber College's IGNITE Sleep Lounge and Zen Zone. The system automates student registration, time tracking, and staff oversight, replacing the former manual process. It includes real-time clock-in/out functionality, waiver form submission with confirmation emails, and an admin dashboard with role-based access.
Technologies: HTML, CSS, JavaScript, Node.js, Express, PostgreSQL, Sequelize ORM, JWT, Nodemailer
